

The progress report is to make sure that teams are on the right track and making good progress with their projects. We will grant one additional point if your team has made excellent progress!

The progress report should include:

1. Progress made so far
 - a. Introduction/background
 - b. Methodology
 - i. Dataset(s)
 1. Details about why the dataset is relevant, has the right size, etc.
 2. Preliminary analysis to check dataset relevance/suitability
 - ii. Techniques and algorithms
 1. What algorithms/techniques you are using
 2. How you are using them
 3. Why or how are they appropriate for this project or specific goal(s)
 - iii. Other relevant aspects
 - c. Results/analysis (if any)
2. Updates/changes made to the original proposal
3. Updated plan/timeline
4. Roadblocks or challenges faced so far or expected
5. Questions for the teaching team (if any)
